Gain Recorded In Gross Revenues For Local Utility

Growth Of District Shown In Annual Audit Of Accounts

The annual audit of the books of the Truckee Public Utility District reveals the constant increase in business done by the district.

The gross operating revenue for both electric and water systems totaled $115,230.53, as against a total of $91,597.42 at the end of June 30, 1953, an increase of $23,-633.11 or 25.7 per cent.

The electric system grossed $99,113.18 as compared to $81,-191.13 in 1952-53, a 22 per cent gain and the water system grossed $16,117.35 as compared to $10,-406.29 in 1952-53, or a 54 per cent gain. The larger gross increase in the water service can be attributed to the acquisition of the Tonini Water System on July 1, 1953, while the increase in the electric system was mostly due to increase in usage of electricity for power, cooking and heating.

The increase in the gross of the electric system does not reflect the same increase in the net total as the total purchased power shown in the report as of June 1954 was $49,522.65, as compared to $47,365.16 as of June 1953, or an increase of $2157.49.

Total operating expenses for both electric and water systems of June 1954 totaled $88,043.62 and for the same period ending on June 1953 they totaled $82,-084.24.

The net operating revenue from both systems this year before depreciation was $19,159.69 and for last year it was 18,421.50.

The income from other sources —such as rent, interest, sale of land, etc. for the year ending June 1954 was $2,057.07 as compared to $1,663.44 as of June 1953.

The assets of the district totaled $262,558.39 after depreciation as compared with assets of $230,568.66 as of June 1953, or a net worth gain of $31,989.73 for the year.

The audit shows that the net revenue of the electric department after depreciation was $9,748.88 as compared to the previous years net of $10,622.83 or a decrease of $873.95.

The report also shows that the net revenue of the water department depreciation was $252.64 as compared to the previous years net of $1,361.89 or a decrease of $1,109.25.

The auditors suggest that the directors give consideration to an increase in the water rates and to the establishment of an installation charge for both electric and water services.

The auditors state that they prepared a report of the financial transactions of the district for the state controller as required under a recent law adopted by the state legislature.

It is interesting to note that the district started out in the electric power business in 1927 with a bonded indebtedness of $20,000 and after making several reductions in its electric rates has constructed and acquired a water system with assets of $94,336.47 and has an electric system with assets of $168,221.92 and all without one cent of taxation to the people of the district.

SECOND SON BORN TO CHAS. ROBARTS

Mrs. Charles R. Robarts and son Keith returned yesterday from Sacramento where the lad was born on Saturday, August 21. The little boy's arrival weight was 8½ pounds. Mr. and Mrs. Robarts are also the parents of another son, named Michael.

CHRISTIAN SCIENCE LECTURE AT TAHOE

A free lecture on Christian Science by Arch Bailey, C. S. of Sacramento, entitled, "A Science for Every Day Living," will be given on Sunday, August 29 at 3 p.m. at Bal Bijou, Lake Tahoe, Highway 50.

The lecturer is a member of the Board of Lectureship of the Mother Church, The First Church of Christ, Scientist in Boston, Mass.

All are welcome to attend.

New Booths Installed At St. Louis Cafe

Six new booths have been installed in the St. Louis Cafe for the convenience and comfort of the patrons. The additional seats are in old rose leather and are matched wth grey-topped tables. Only recently the entire dining room was completely renovated and redecorated by the partners, George Carter and Harold Welsh.

Recuperating—

Pamela, daughter of Mr. and Mrs. Dave Rose is recuperating following an eye operation at Reno.

Dr. Nelson Plans To Resume Work Here Early In Year

Dr. L. D. Nelson, who with Mrs. Nelson is visiting friends here this week while on a brief leave from his duties as lieutenant in the navy, announced that at the expiration of his service about the first of the year, the family will return to Truckee.

The doctor will reestablish his practice here and the family plans to return to their Gateway Park home now occupied by the Howard Newsham family.

Dr. Nelson, the first and for a short time the only staff member at the Tahoe Forest Hospital, was very active in that institution's planning and construction plans and will to resume his work there immediately upon his return to private practice.

The doctor had built up a large practice prior to his being called into the service and during his tour of duty has been physician and surgeon on naval transport ships plying between the west coast and Far East, thus gaining additional valuable medical knowledge. Mrs. Nelson and the couple's two children are currently making their home at San Lorenzo, but all are anxious to return to their home here where they have scores of friends who will extend them a hearty welcome.

While no exact date for their return can be announced now, Dr. Nelson hopes to be able to resume his work here in January.

Explosion On Boat As Three Escape

TAHOE CITY—An explosion and fire on a boat belonging to Dr. P. L. Plantings of Glendale Saturday wrecked the craft but the doctor and his two sons escaped serious injury by diving into the waters of Lake Tahoe.

One of the boys, 15-year-old Peter, was taken to the Tahoe Forest Hospital suffering with second degree burns on his left arm and face. After treatment he was released. The other son, Bill, 13, had his hair and eyelashes burned.

A mechanic at the Tahoe Boat Company, Mel Graham, said the doctor and his sons had put into the boat company harbor coming over from their summer home at Carnelian Bay. They appeared to have some difficulty starting it after a trip ashore.

Graham said two loud explosions echoed across the harbor and he saw the Planting craft spout smoke and flame.

A foam extinguisher on the boat company pier, plus assistance from the Tahoe Fire Department put the flames out in about 15 minutes.

Earthquake Shakes Truckee Monday P.M.

A distinct earthquake, which was felt from Salt Lake City to San Francisco and which was apparently centered in a region some 30 miles north of Reno, was felt here Monday night at 10:55.

Houses were shaken to a point where dishes rattled in cupboards but no damage was recorded.

Fallon, Nev., reported some damage to irrigation water systems and pavement buckled on one or two roads.

Temperatures Lower In Tahoe City Area

TAHOE CITY— With five gates open into the Truckee River, the level of Lake Tahoe Monday stood at 6227.76 feet.

Temperatures have been somewhat below normal for this time of the year, with morning lows in the 30's and the high for the week on Sunday when the thermometer registered 70 degrees.

Visits Father—

Mr. and Mrs. Alvah Hooper were in Oakland during the weekend visiting with the former's father who is recovering from a recent illness.

Here From Capital—

Mr. and Mrs. Art Walters, former owners of Sierra Tavern, were visiting friends here during the weekend and asked to be remembered to those they did not see.

Warning Issued By Health Body In Sewer Projects

Permits Are Required By County For Installing Sewer Systems

The Health Department is issuing a warning relative to the county ordinance which prohibits the installation of individual sewage disposal system without first obtaining a permit to do so.

The department, in a formal statement, issued this week, called attention to the fact that the obligation for securing the required permits lies with the builder, owner or contractor before construction is started. These permits may be obtained from the Truckee Public Utility District, the Donner Trail Lumber Company or Armstrong Realty Company in this area.

The county sanitarian has attempted to keep abreast of new construction in the area without success and is calling upon the residents to cooperate.

Building without a permit, it was pointed out, may lead to unnecessary penalties. The ordinance was designed to protest against unsanitary conditions and must be obeyed, the department emphasized. Further violations will be reported directly to the office of the district attorney, the statement added.

"Many persons believe that our requirements are far too stringent for areas such as the Truckee, and Donner Lake area, and especially inasmuch as many of the homes and cabins are used only for a short period during the summer months," the statement declared.

"If you are one of these persons, it would be wise to survey this area and note the number of people, who are building, and at present enjoying the surrounding areas. This area is no longer a camp site for an overnight sojourn, but is rapidly growing into a small city.

"If Donner Lake itself became polluted to the extent that quarantine restrictions were necessary, the people who enjoy the swimming, boating, fishing and other pleasures this lake now affords, would no doubt voice the opinion, that the health department had been very lax in allowing this condition to come into existence.

"Our county ordinance is designed to prevent this condition, but can only be avoided through the co-operation of the public, and the local officials.

"A word of warning to those builders who are approached by persons seeking to install your sewage disposal system for you, at a nominal cost: Many of these persons are working for personal gain, and are not operating within the standards and specifications set forth by the county ordinance.

"You, as the owner, are responsible to comply with this ordinance, and you may perhaps avoid additional finances and labor, by inquiring as to the legality of your proposed system.

"From the date of this publication all violations of this ordinance will be directed to the office of the district attorney of this county, for the necessary action."

Budget Session Slated By Supervisors Friday

County Supervisors will consider no other business than budget matters at their meeting tomorrow. The session will begin at 10 a.m. in the board's chambers. Anyone desiring to protest any increase, decrease or omission in the proposed budget may attend and be heard.

DAUGHTER BORN

Mr. and Mrs. George D. Boyle of Tahoe City are parents of a baby daughter, Lori, seven pounds, 11 ounces, born at the Tahoe Forest Hospital Friday, August 20 at 9:41 p. m. Dr. B. R. King was the attending physician.

Guests at Carnelian

Mr. and Mrs. P. H. Ackerman of Carnelian Bay have been showing the surrounding area to Mr. and Mrs. Clair Ettinger and son, David, of Albany and Mr. and Mrs. Charles Greenfield of San Francisco, their houseguests.

SUNBEAMS

By WALTER M. BARRETT

Traveling along the highway at speeds of 60 to 70 miles an hour is fast. When 100 feet slide under the car in a second it is really traveling. But this is not the complete story. When two cars pass at 65 miles an hour, the meeting speed is 130 miles, about 191 feet per second. So the speeds one handles are really fast. No wonder headon accidents are fatal. Check the number of seconds it takes to pass another vehicle. It will run between 6 to 10 seconds, Multiply that by 200 feet which is probably the rate at which space is diminishing between approaching cars. That gives a rough idea if the distance one must allow for safe passing at high speeds. With the approach of the Labor Day weekend —one of the most traveled weekends of the year, it would pay dividends if everyone would study the figures above and remember that speed is the greatest of all killers on the highway.

The final day for voter registration for the November 2nd general election is September 9th. Unless you are now properly registered it is time now to prepare to take part in the importan balloting. After September 9th it will be too late, so take time out now and be sure you are qualified.

COUNTY ASKS STATE ENGINEER TO STUDY TROUT CREEK SPAN

Supervisor H. G. Loehr reports that a formal request from the Nevada County Board of Supervisors to the state department of public work to have an engineer examine and determine what should be done about the Trout Creek bridge was made at a recent board meeting.

Loehr said he considers the bridge in its present condition unsafe and hopes to have the structure repaired, removed or replaced with a fill, in case the engineer's report bears out his contention.

The flooring of the ancient bridge, Loehr said, can not bear the weight which is expected of it and a three-ton limit has been ordered. During the heavy snows in the winter the bridge is closed to prevent accidents.

SACRAMENTO MAN FINED $50 AFTER KINGS BEACH FIRE

One-hundred square feet were burned over four miles south of Truckee just east of Highway 89 yesterday, in this district's 14th forest fire of the current season. The fire which may have been burning for a few days, was discovered by Marshall Ruhkala of Tahoe City who fought it until the suppression crew arrived.

Russell W. Powell of Sacramento was fined $50 on Monday, September 23 in the court of Judge Harry Charrison after he had been found guilty of starting a fire in the Kings Beach district by dumping hot ashes, Saturday, August 21 at 11:30 a.m.

This was the twelfth fire of the season, according to Henry Toccalini of the U. S. Forest Service at Truckee, and was quickly followed by fire No. 13 in the same area started by children carelessly smoking. Both incipient blazes were quickly put out by the response of the Kings Beach Fire Department and the fire crew of the Tahoe Forest Service.

Four-Lane Project Bid Awarded for $623,573

SACRAMENTO (CNS) — Bids were opened today for a four-lane highway extending 2.7 miles on U. S. 40, from a mile west of Applegate to Heather Glen.

Piombo Construction Co., was low bidder on the job, asking $623,573.25.

Donner Petition Asks Utility To Drop Objection

150 Signers On Document Want Company To Supply Water

One-hundred and fifty property owners have petitioned the directors of the Truckee Public Utility District to withdraw their announced opposition to the installation of a water system at Donner Lake by the Donner Lake Utility Company.

Opposition to the Donner company's application ot the California Utilities Commission was voiced at a public hearing three weeks ago. The company had requested a certificate to install and operate a water system at the east end of the lake to make possible the opening of new subdivisions.

Previously the Donner Lake Improvement Association had petitioned the utility district to take steps to supply water and the area embracing the lake as a whole has been taken into the boundaries of the district.

It was on this latter clause that the district based its principal opposition to the issuance of a certificate by the state commission.

Lee Nesbit, representing the Armstrong Realty Company at Donner Lake, said that to his knowledge not a single property owner at the lake has voiced opposition to the most recent petition requesting the utility district to withdraw its opposition and permit the company to proceed with its plans to supply water in areas not now serviced by the Donner Lake Development Company, parent concern of the Donner Lake Utility Company.

E. L. Loynd, president of the utilty district, said he would withhold comment on the latest petition pending a meeting of the board.

LIONS CLUB SHOW READY FOR STAGE ON AUGUST 27-28

How loud can you laugh?

The Truckee Lions Club wants you to come and find out at their musical comedy show: "You Can't Beat Fun."

The cast of more than 60 local people is rehearsing this week at Capitol Hall and performances will start at exactly 8:15 p.m. on Friday and Saturday evening, August 27 and 28.

One of the highlights of the show, according to Director Pat Casey, is a "silent movie" version of the old-time "mellerdrammer," "He Done Her Wrong," featuring Fran Robichaud as Frankie, Bill Englehart, Jr., as Johnny, Howard Newsham as Nellie Bly, Daven Morey as the bartender, Jack McGlade as the barroom singer and Hugh Smith at the piano.

Complete cast and chorus will be found elsewhere in this issue, Miss Casey reports that the advance ticket sale indicates a capacity house both nights and suggests that you come early to get good seats.

Susan Scow Celebrates Birthday at Party Sunday

Susan Scow celebrated her birthday with an outdoor party Sunday afternoon. The guests hiked along Cold Stream, swam, played croquet, and roasted weiners before cutting the birthday cake. Those attending were Sherry Curran, Merrill Englehart, Arlene Copeland, Karen Knoefler, Marty Kumle, and Eric Scow.

Pete Lazzaris Mark 25th Wedding Date

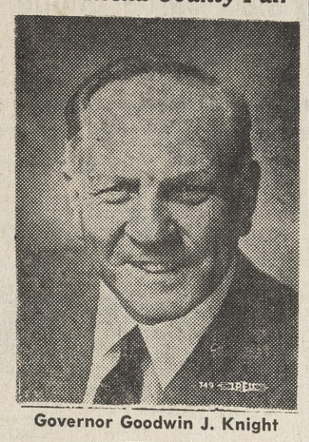

The silver wedding of Mr. and Mrs. Pete Lazzari was celebrated at their home on August 17 when nearly 30 friends gathered to observe the occasion.

Dinner was followed by the cutting of a silver decorated, tiered cake and the couple was presented with a number of lovely gifts for their home.

Happy Day—

Harold Langille was another local birth date celebrant on August 14.

Will Attend County Fair

Governor Goodwin J. Knight

Governor Will Be Honored At Fair

GRASS VALLEY—Nevada County Fair officials have designated Saturday as Governor's Day in honor of the scheduled visit of Gov. Goodwin J. Knight.

The four-day program will open at 10 a.m. Thursday with judging of exhibits and the entries will undergo further scrutiny from the judges on Friday and Saturday.

A Friday and Saturday night feature will be motor polo exhibitions.

On Saturday there will be a public reception for Governor Knight from 3 to 5 p.m. The governor will be accompanied by one of his press secretaries, Douglas Barrett, formerly associated with his parents in the publication of the Sierra Sun at Truckee.

A horse show at 1 p.m. Sunday will be followed by a county reunion, band concert, livestock show and vaudeville. The county historical society and the Grass Valley Junior Chamber of Commerce will be reunion hosts.

More than 800 sections with 2743 prizes, seven sweepstakes awards and 38 championships await senior division entries and in the junior division there will be 782 prizes and 28 champions honored.

FIRST MEASURABLE RAIN SINCE JUNE; SNOW HITS PEAKS

The first measurable amount of precipitation in this area since June 16th was recorded by the U. S. Forest Service this morning when .05 of an inch of rain was reported. Light snow fell above the 8,000 foot level.

Henry Toccalini, dispatcher at the forest service office here, said the moisture was not sufficient to eliminate the fire hazards.

STATE AND COUNTY ROADS NEAR HERE BEING IMPROVED

Clements Construction Company, currently resurfacing Highway 40 between the foot of Donner grade and the east approach to Truckee, this week is expected to start surfacing the streets in the Gateway Park subdivision.

Because the crews will be busy during the week days, it will be necessary that the work at Gateway be done during weekend, Supervisor H. G. Loehr said. The one and a half miles of streets, part of the county road system, will be surfaced with three inches of plant-mix materials and will require approximately 2500 tons for completion.

The county board of supervisors approved the work which was proposed by the road commissioner at the last meeting.

Cub Scout Outing Set At Donner on Tuesday

Four Dens of Cub Scouts, their leaders and parents are planning an evening picnic supper at the west end of Donner Lake on Tuesday, August 31. A short time in the water, beginning at 6 p.m. and at 7 supper will be served.

Parents of the boys are requested to contact Mesdames D. L. McGihon, James Walker, Zuber, Hugh Weinand, Den Mothers for the hot dish or salad each family will contribute to the meal.

The Arkansas River, which rises in central Colorado, is approximately 1450 miles long.

Third Stolen Car Within 10 Days Wrecked In Area

Two Salt Lake Boys Wreck Stolen Car Today At Flycasters

Recovery of a third stolen car within the past ten days was reported by the California Highway Patrol here this morning and like the other two, this one wrecked. Patrolmen Roy Stallard and Martin Sturcke were called at 1 a.m. today to assist in the apprehension of two 16 year old Salt Lake City boys, Gaylen Peit and his cousin, Larry Linam, who, according to the Reno sheriff's office stole the new Mercury in Reno. They evaded the Nevada officers in a 110-mile an hour chase, which ended when the vehicle was wrecked just east of the Flycasters curve, five miles east of here.

Peit was apprehended by the local patrol, but Linam escaped for the time being by hiding in the brush near the scene of the crackup.

Within 10 miles of the spot where an unidentified hitchhiker was killed when a stolen car was wrecked near Floriston August 18, just a few hours later a second stolen car was demolished and another hitchhiker injured near Hirschale, August 19.

State patrolmen arrested David Allen Latta and William Scott, Jr., both 19, of Los Angeles.

Injured in the crash when the car struck the bridge and plunged into the Truckee river was John Rassmussen, 22, of British Columbia. He was treated at the Tahoe Forest Hospital and released.

Neither Latta, driver of the car, nor Scott was injured. The two are held in the Nevada County jail following their arrest. They attempted to leave the scene of the accident but were apprehended a short time later.

A few hours earlier a car driven at high speed by Gerald Norman Brewster, 18, of Portland crashed into the Sierra Pacific Power Company flume below Floriston and the unidentified youth was killed. Brewster was charged with car theft and may be held on a manslaughter count as well. A third passenger in the vehicle, Glenn Sprott, 18, was not injured and was not held. He was a hitchiker.

TWO HURT

F. C. Dollarhide of Pollack Pines and Lorraine Tuman, Stockton, were hurt when cars driven by Salvan R. Coolidge, Reno, and Edward W. Kirksten, Santa Cruz, collided near Crystal Bay. The injured women were riding in the latter vehicle. Coolidge was cited for passing without due caution.

Harry E. Smith, Oakland, suffered minor injuries when his car went over a bank near Floriston Saturday morning. He was cited for speeding.

Wesley Cromwell of Laguna Beach was cited for being on the wrong side of the highway and speeding after his car and one driven by Edward H. McBride of Alameda collided near Carnelian Bay Friday. Cromwell was treated at the Tahoe Forest Hospital.

FIRST AID CLASS TO START AUG. 31

A standard first aid class will be held under the direction of Mrs. Marie Henry and Gordon Butterfield at the Tahoe Lake School beginning on Tuesday, August 31, at 7:30 p.m.

Anyone in the Tahoe-Truckee area interested in obtaining a standard first aid card is invited to attend this class. If there are a sufficient number from the Truckee area registered in the class, part of the meetings will be held at the Tahoe-Truckee High School, however the first meeting will definitely be held at the Tahoe Lake School, the above date and time.

Stamp Collectors Plan Meeting September 2

A meeting of the Donner Stamp Club will be held at the Wyethia Clubhouse on Thursday evening, September 2 at 8 o'clock. All interested in stamp collecting are invited to attend. The first part of the meeting will be devoted to stamp exchanges followed by discussions on the various phases of stamp collecting.

Robichauds at Funeral For Kin at Sacramento

Mr. and Mrs. Francis Robichaud are expected to return today from Sacramento where he was called on Monday by the death of his father, Charles Robichaud of Carmichael.

Last rites were held in Sacramento on Wednesday for the deceased who was a native of Massachusetts.

With Ransome Company—

John Waller has taken a position as salesman and driver for the Ransome Fuel Company.

TAHOE FOREST ACTIVITIES

Operation Skyfire

For the past several years there has been in operation in the northern Rocky mountains a project aimed at preventing lightning fires by modifying lightning storms. Known as "project skyfire," this is a cooperative effort between the Forest Service (Region One) Park Service, Weather Bureau, and Munitalp Foundation.

The specific objectives of project skyfire include determination of areas favorable to the development of lightning storms and study of their characteristics prior to efforts at reducing cloud-to-ground lightning by seeding. In addition, studies are being made of the jet stream in order to determine its relation to the development and movement of lightning storms.

In cooperation with the skyfire project, a number of agencies in California are starting a similar lightning-storm survey this year. These agencies include the Forest Service, State Division of Forestry, National Park Service, and Weather Bureau. The program in California this year will test the feasibility of establishing a more extensive program next year while providing valuable preliminary information on cloud-breeding areas.

Cloud observations will be made by network of eight lookouts distributed throughout California. The observations will be recorded on special forms which will then be sent to a central agency for analysis and interpretation.

The Tahoe lookout selected for participation in this year's project in Sardine Peak.

Each of the lookouts selected will receive individual instruction on observation procedures. John Hastings, California Division of Forestry will visit the lookout sometime between August 9 and 17. It will take about one day (or less) to train each lookout. Training will not interfere with the lookout's regular duties.

Incidentally, it has been the experience in the Northern Rockies that lookouts participating in the cloud-observation program are doing a better job in their regular duties. Far from distracting them, the program has stimulated lookouts to be more observant.

The program should be in full swing by mid-August. A successful program this year will mean that we will be a year ahead in planning operations for next year.

The Tahoe has been looking forward with a great deal of interest to this project, as it may eventually men that our long sieges of lightning fires which we experience every year may be greatly diminished or completely done away with. These fires are extremely costly both as to suppression and loss of resource values.

Sardine Lookout is located in the center of the lightning storm area, and for this reason was chosen to participate in the tests this year.

Anyone who has ever worked on fires during one of these storm periods, can well appreciate what the success of this program will mean.

AFFAIRS OF STATE

by Henry C. MacArthur

SACRAMENTO (CNS) — The proposal of Assemblyman Caspar E. Weinberger, of San Francisco, whose researches in the field of alcoholic beverage control administration led to an upheavel, to begin a comprehensive study of the desirability of establishing a Department of Revenue in California could have some far-reaching implications.

First, Weinberger's proposal is not new. The question of whether the many sources from which California derives its money for government services, both for the general fund, and for special funds, should be drawn together in one large department, has been discussed for many years.

Weinberger's committee, he says, "will examine the possible economies which might be achieved by consolidating into one streamlined department, portion of the numerous state agencies and department which now levy, collect, and administer California's taxes."

The San Francisco assemblyman's success in his liquor investigation presages, then, another possible success in pointing out to the people of the state that tax collection can be streamlined. And more than pointing it out, getting some action, as the Weinberger committee did with the liquor problem. For the action will be in November, when the people will vote on a constiutional amendment which if adopted, will take the administration out of the hands of the state board of equalization, where it has reposed since the demise of prohibition in the early 1930's.

Aside from liquor, the board of equalization administers the state sales tax, which is the largest source of revenue to California's coffers. Outside of routine announcements as to how money has been collected for certain periods of time, all administrative matters pertaining to this tax are cloaked under a shroud of secrecy, permissible by state law, and consequently, the public has no opportunity to know whether the board of equalization s administration of this tax is good, bad, or indifferent.

It does not have the opportunity to know what, if any types of "settlement" are made with firms the government claims owe taxes to the state, nor does the public know what kind of assessments are made in instances where records are not kept by private firms. Thus, the door is open to all kinds of phenagling, whether it has occurred or not.

In addition, the board of equalization administers the gasoline tax, as well as the liquor tax.

Thus, adoption of a constitutional amendment or legislation creating a State Department of Revenue, would wipe out all of the functions of the board, except its constitutional prerogative of making utility assessments, and sitting as an equalization board to equalize county tax assessments. This later chore it has not performed for many, many years, if at all, and is waiting until July 1, 1955, to equalize these assessments, at the express direction of the state legislature.

Whether Weinberger has it in the back of his mind to completely strip the board of equalization of all powers, eliminate it entirely and put the assessment operations into some other department, remains to be seen. If such is the case, the procedure will be a long, drawn-out process that perhaps won't work at all.

But in any event, if a department of revenue proves feasible and is submitted to the people of the state for approval, or even to the legislature, which can create such a department, it will be something to watch.

NEW MEMBERS FOR TAHOE CHAMBER

Tahoe City—Secretary Jeannette Mitchell of the Lake Tahoe-Sierra Chamber of Commerce reports on Tuesday that she and her co-workers, Mrs. Clara Sanford and Myrle Rose, on Monday night contacted 34 residents and business concerns between Tahoe City and Ward Creek and of this number 12 became new chamber members, 20 others renewed their memberships and only two were uncertain.

If the rest of the lake can produce a record equaling this one, the local chamber should boast a marvelous membership for the coming year. It is planned now by the new secretary to continue the drive for new members throughout the year, instead of only on stated periods. In this way she will welcome new members as they arrive.

Fish, Game Chairman Named At Meeting

SACRAMENTO (CNS)—James W. Silliman, speaker of the assembly, today confirmed the appointment of Glenn E. Coolidge (R), Santa Cruz County, as chairman of the assembly fish and game committee.

Coolidge succeeds Stewart Hinckley (R) Redland, who recently resigned from the legislature to accept a federal appointment.

ARE YOU A SUNSCRIBER?

COST OF FOUR-LANE FOR 40 ESTIMATED AT OVER $42,000,000

Cots of four-laning U. S. Highway 40 from Roseville to Nevada state line, has been estimated by State Division of Highways at from $42,000,000 to $50,000,000. A division spokesman said the estimate is based on preliminary studies, hence the wide leeway in total cost.

The estimate applies to 104 miles of highhway from one-half miles east of Roseville to the state line, excluding 8.1 miles of existing four-lane highway from Auburn to Applegate and 2.6 miles to be four-lane from Applegate to Heather Glenn this fiscal year.

As to the $50,000,000,000 federal highway proposal by President Eisenhower, the spokesman said the amount apparently was based on an earlier estimated $47,000,000,000 road deficiency throughout the U. S.

"There is no way to predict to what extent California would share in such an amount or the type of allocation that would be made," he said.

The state is committed toward providing half of the cost of four-laning Highway 40, up to $20,000,000, if federal funds are made available.

NOTICE OF GENERAL ELECTION
Tahoe Forest Hospital District

Pursuant to Section No. 32100.3 of the Health and Safety Code of the State of California, the Board of Directors of Tahoe Forest Hospital District declare, and NOTICE IS HEREBY GIVEN, that the Biennal Hospital District General Election shall be held in the Tahoe Forest Hospital District on Tuesday, the 16th day of November, 1954, for the purpose of electing three Directors-at-Large for said District. The following offices are to be filled at said election:

Director-at-Large No. 1
Director-at-Large No. 2
Director-at-Large No. 3

The candidates for the offices set forth above may secure nomination papers from the Clerk of said District, which nomination papers must be filed with the Clerk of said District not later than the 11th day of September, 1954.

Dated August 17, 1954.

C. R. HELLER
President of Board of Directors, Tahoe Forest Hospital District.

Howard Vaughan
Clerk and ex-Officio Secretary of the Board of Directors.

SWANEE'S Lake Tahoe Letter

Tahoe City, Aug. 22

Dear Tahoeites:

Although the weather continues marvelous with sunny skies and warm days, nights are chilly, and summer is passing swiftly. Meadows are brown and most of the lovely flowers are gone. Only the yellow sage brightening up the roadsides. Deer are seen frequently in this area, but so far, I have seen only does and their fawn. A few of them dead beside the highway where they were hurled by speeding cars. The crowds continue to pour into the area, but most businesses are slowing down as the season nears its end. Fire hazard is severe, so watch your step in the dry forest.

The funeral of Mrs. Josephine Bacchi who passed away at the age of 70 Wednesday last was held on Saturday from St. Mary's Catholic Church, Sacramento, with burial in St. Joseph's Cemetery. Six of Mrs. Bacchi's nephews served as pallbearers. They included three brothers, Joe, Sal and Tony Parino, Joe Saia, and Joe and Sam Bacchi, all of Sacramento. A large crowd of friends and relatives attended the services, preceded by High Mass and banks of flowers filled the room, many from Tahoe friends. Rosary was said on Friday night for Mrs. Bacchi at the Cippa Nicoletti Funeral Parlos. Mrs. Bacchi suffered a stroke on Tuesday and Dr. C. B. Pedersen was called. She passed away the following day. Last year she sold popular Bacchhi's Inn to her son-in-law and daughter, Mr. and Mrs. William Hunter, who winter in Lodi. She had planned to make her home with them permanently and had spent the summer here. Her daughter, Kathryn, Mrs. John Maderos of Sacramento, was unable to attend the funeral services, for at the same time they were being conducted on Saturday, she was giving birth to her fifth child, a son, who has been named Kirk, in Sacramento Hospital. The sympathy of the entire community is extended members of her family. She was a dear, sweet old lady, esteemed and loved by all. Mrs. Bacchi was born in Massina, Italy, in 1884 and came to Lake Tahoe first with her husband, George, in 1927. They operated first a fruit stand and gas station in Tahoe City, building Bacchi s Inn in 1932. George died some three years ago, and until last year Mrs. Bacchi conducted the business with the aid of her daughter, Sara, and husband, Bill.

Mr. and Mrs. M. A. Lopes of San Leandro are enjoying a late summer vacation at the family summer home in Timberland. They have as their houseguests, Mr. and Mrs. Victor Costa and daughters, Marilee and Leola, also from San Leandro. Their son and family, Mr. and Mrs. Melvin Lopes and children, Julie and Stephen, recently spent three weeks vacationing here from their home in San Leandro. Still occupying their Timberland home are Superior Judge and Mrs. Chester C. McDonald of Woodland. The Imon Mitchell home was filled with company today, Sunday, when guests for dinner included Mr. and Mrs. William Hommerbocker and son, Billie of Marysville, who remained over Saturday night; Mrs. Leonard Mitchell and Clymon Mitchell of Sutter, and their houseguests, Mr. and Mrs. Ted Mitchell, who are visiting from the East. Hal Sharrow of San Anselmo was a visitor at his Tahoe home in Pineland over the weekend. Dennis Ferguson, who has reside dat the Mitchell home all summer, departed for his home in La Jolla today. Mrs. Solveig Beavers and children, Chris and Nancy Ann, are vacationing with her folks, Mr. and Mrs. Sigbard Ronning of Palo Alto. She returns the latter part of this week. Little Nancy just two years old, has been having a time for herself while at grandma's and grandpa's, her latest antic being a swim in the bathtub which she filled with water herself during an unguarded moment, after which she climbed in, shoes, clothing and all, to cavort with glee.

Mrs. Marie Henry, a qualified instructor in Tahoe City, announces this week that she will start teaching classes in standard First Aid courses in mid-September. She asks all who are interested in taking the course to please contact her at once at Tahoe City 70, giving their preference for the days on which classes should be held. She has heard that a group of 15 or more from Truckee want to take the instructions and if this is the case she will be happy to hold classes alternately in Tahoe and Truckee. However, she must know at once in order to arrange the courses satisfactorily to all. She will make a further announcement in next week's Sierra Sun. Mrs. Henry, who is a member of the Placer County Board of Health, accompanied by her husband, Joe, on Monday last motored to Auburn to attend the regular monthly meeting of the county health board.

Ring off for the week with a cheery adios, as ever, Swanee.

Such good taste

Changes Proposed For State's Election Laws

SACRAMENTO (CNS) — Extensive changes in California's election laws were suggested to the assembly interim committee on elections and reapportionment, which is headed by Assemblyman Charles Conrad, of Los Angeles. The committee held a pre-party convention meeting here.

Paul Ziffren, Los Angeles, member of the Democratic National Committee, renewed demands that the policy of cross-filing be abolished, and urged that the name of a candidate's party be printed in full on the ballot in type as big as that used for the name.

It was the "Rep." and "Dem." designation on the primary ballot to which Democrats attributed much of their victory at the June primaries.

Ziffren also asked that present law covering reporting of campaign expenditures be completely overhauled, and asked that county and state central committee be given the right to make pre-primary endorsements.

He also said every candidate and campaign committee should be required to submit complete and detailed financial reports both for primary and general elections. Primary requirements are now limited to personal expenses of candidates.

Herbert Hanley, former San Francisco County Republican Central Committee chairman, said the election committee should consider moving the present June primary back to August, declaring that from June to November is too long for candidates to carry a campaign because of time consumed and heavy expenses.

There was also a proposal that the state partially subsidize partisan candidates' campaign at the general election.

JUVENILE HOME FOR PLACER WILL COST $120,000

AUBURN—The cost of a new Placer County juvenile detention home was estimated at $120,000 by Architect Raymond Franceschi of Sacramento.

Rough plans for a proposed new building were presented to the board of supervisors Monday by Franceschi and Probation Officer James Nelson.

The architect said that by cutting off eight dormitory rooms, four from the boys' wing and four from the girls' wing, the cost might be reduced to approximately $100,000.

Franceschi's plans included a one story building and basement of 6000 square feet floor space. It included living quarters for the superintendent, as well as a dining room, living room, kitchen, utilities, and individual rooms for boy and girl inmates.

The site of the proposed new building is on the county hospital grounds.

The supervisors referred the plans to the county probation committee for study and recommendation.

ALL AVAILABLE PATROLMEN WILL WORK LABOR DAY

SACRAMENTO — The familiar black and white automobiles of the California Highway Patrol will be in evidence more than ever over the coming Labor Day holiday, according to B. R. Caldwell, highway patrol commissioner, who emphasized that orders to patrolmen deal particularly with control of those who drive too fast, too slow or who drive while under the influence of alcohol.

"Every piece of equipment and every available officer will be on the road," Caldwell said. "We know from experience there will be heavy traffic as people take their last vacation trips and we will be prepared for them.

"Our advice is for motorists to plan their trips carefully so they will not be forced to drive too long or too fast. In either case it could lead to trouble."

Caldwell pointed to the dangers surrounding "slow poke' drivers who cause traffic delays and incite other drivers to commit unsafe acts.

"We are watching for every such slower driver to see that he does not impede traffic," Caldwell said. "If a driver wishes to drive slower than the other traffic then he must keep to the right as far as possible. This is not an invitation to others to speed but is a movement to provide for fair and efficient use of the highways."

36 PER CENT GAIN IN GAS TAX RETURN IS SHOWN FOR YEAR

SACRAMENTO (CNS)—The California State Board of Equalization today reported that net revenues from gasoline and other mtor fuels increased 36.6 per cent during the fiscal year ended June 30.

The state netted $229 million during the year, nearly $62 million more than during the preceding year when the gasoline tax was four and a half cents a gallon. The present tax is six cents.

A spokesman for the board said the 2.4 per cent increase in volume of gasoline sold during the 12-month period was the smallest yearly gain in California since 1945. The slowdown was attributed to the drop in business activity last winter.

Joseph G. Marillac of Tahoe City and Mary Jo Chase of Columbus, Ohio, applied for a marriage license at Reno, during the weekend.

GMC Develops Dual-Purpose Truck

Mrs. E. E. Wilson, smart fashion leader of Birmingham, Mich., uses her new GMC Deluxe pickup for errands around the farm and into the city. New styling and a 125-horsepower engine make the 1954 GMC an ideal dual-purpose vehicle—for rugged farm work under full load, or for quick trips on family use.

SOUTHERN PACIFIC ORDERS NEW BOX CARS FOR DISTRCT

Authorization for acquisition of another 1500 large size railroad box cars has just been announced by President D. J. Russell of Southern Pacific Company. The cars will be built in the railroad's own shops, he said.

Announcement of this large new authorization for freight equipment comes just as the first cars on a previous order for 1250 box cars are starting to roll off Southern Pacific's shop assembly line.

Addition of these 2750 cars now authorized or under construction will raise to 25,400 the number of new box cars acquired by Southern Pacific since the end of World War II, Russell said, and will bring the total number of all types of new freight train cars acquired, or authorized, by the company to almost 43,000.

Most of the box cars now being built, or authorized, will have doors that are 15 feet wide. They are especially in demand for the easy loading of lumber.

Southern Pacific's postwar expenditures for eqyuipment purchases, including today's authorization, have now risen to more than $524,000,000, it was stated. The improvement program has included freight and streamlined passenger cars, diesel locomotives, and 5/8 half of the cost of 10,500 new refrigerator cars for the jointly owned Pacific Fruit Express Company.

Mr. and Mrs. P. R. Murray of Tahoe Vista left last week on a three weeks vacation to a number of interesting summer spots in the United States and Canada.

SLOW CARS CITED AS TRAFFIC MENACE BY LOCAL CAPTAIN

"Any motor vehicle traveling slower than the normal flow of traffic must be operated in the right hand lane or as close to the right edge of the roadway as is practicable," explained Capt. Richard Langner of the Roseville California Highway Patrol office.

"One of the most dangerous accident causing violations occurs when selfish drivers place their cars next to the center line and cruise along at slow speeds which force other drivers into errors of impatience of carelessness," Captain Langner pointed out.

"Every driver must understand that this law applies regardless of the posted speed limits, or when driving slower than the speed of the normal flow of traffic. Exceptions," he said, "are when a vehicle is preparing to make a left turn, or when passing another automobile."

Mrs. Dave Ashton of Kings Beach celebrated her birth date, August 20, with the Donner Dancers square group of Truckee.

Mr. and Mrs. H. E. Steward who have been vacationing at Tahoe City are leaving for the bay district. Steward is a teacher in the San Lorenzo schools.

SUIT CHARGES MAN ATTACKED IN CLUB

RENO—Frank Adams of Crystal Bay, Lake Tahoe, charges he was attacked by three staff members of the Cal-Neva casino in a $212,000 damage suit filed in the district court.

Named as defendants, in addition to the casino, are Charles Reznik, Jack Burke and Billy Bryan. Adams states he suffered numerous cuts and bruises when he was attacked by the trio at the club July 28. He charged additionally that the three defendants accused him of larceny and detained him for 15 minutes.

QUESTION ANSWERED ON SPECIAL HUNT

In answer to numerous questions —the special hunt in Sierra Foothill No. 1 (western Nevada County) is an either sex deer hunt. In other words the lucky holder of one of the 1000 permits can shoot either a buck or a doe during the special hunt season, regardless of their success in the regular season.

The regular deer season will open September 25 at a half hour before sunrise. The special hunt season is divided and takes in the last two weeks of the regular season. Five hundred permitees will hunt the first half October 11 to 17 and the last 500 permit holders will hunt October 18 to 24.

If you have filled in your application and sent it in you now wait for the fish and game department to notify you if your name is drawn probably late August or early September. Then the lucky ones send in their $2 and receive a permit.

LOAN ASSOCIATIONS ASSETS ARE LARGE

SACRAMENTO (CNS) — Assets of state-licensed savings and loan associations throughout California increased by $312 million during the 1953-54 fiscal year, State Savings and Loan Commissioner Milton O. Shaw reported to the governor.

Shaw said the increase boosted savings and loan association assets in California to $1,447,000,000.

Market Center

The San Francisco Bay area is the nation's sixth largest fruit and vegetable marking center.

NOTICE OF FINAL HEARING ON 1954-55 BUDGET

NOTICE IS HEREBY GIVEN that the Board of Supervisors of the County of Nevada, State of California, will meet on Fridav, AUGUST 27th, 1954, at the hour of 10 o'clock A. M., in the Chambers of said Board in the Court House, Nevada City, California, for the purpose of considering the final budget of Nevada County for the fiscal year 1954-55. Copies of the preliminary budget pamphlets are available to taxpayers requesting them in the County Auditor's office.

Any taxpayer desiring to appear before said Board of Supervisors and be heard regarding the increase, decrease, or omission of any item of the budget or for the inclusion of additional items, is invited to do so before final approval is ordered, which said final approval must be given according to law on or before August 30, 1954.

R. E. DEEBLE,
County Clerk and Ex-Officio Clerk of the Board of Supervisors.

Date of Publication: August 26, 1954.

FIRE TAKES BIG TOLL IN NORTH TAHOE COMMUNITY

KINGS BEACH—This year has marked the worst fire record since the North Tahoe Fire District came into being.

This is according to a report issued this week by Max J. Krueger, chief of the district's fire department. To give some idea of the seriousness of the matter Krueger submits the following which he hopes will serve as a warning to all:

"In the past the average number of fires per year has been 14. This year, with fourth months still to go, we have had 22 fires, or a little over four times as many as in the past.

"The sad part of it all is that if people would only use their heads, none of these fires need have started.

"With the fire hazard in our area very high due to the continued dry weather, persistent winds and heavy influx of people, it behooves all of us to be on our unwavering guard against fire.

"We of the North Tahoe Fire Control are doing the best we can with what inadequate equipment we now have. We are daily striving to bring our department to the perfection we know it must have. But if you people do not cooperate and stop starting all these needless fires, it seems that we are destined to be burned out of forest and home and all our efforts to avoid this will be in vain.

"Please, please, be careful with fire. Remember to be careless takes but a second—the results may be for a lifetime."

California has six geographical state park districts.

FEDERAL OFFICER, BRIDE MARRIED IN CEREMONY AT LAKE

TAHOE CITY—Following a beautiful wedding ceremony at the Corpus Christi Catholic Church at Tahoe City, Mr. and Mrs. Claude Drake Herbert departed for a honeymoon at an undisclosed locale.

Mrs. Herbert was Mrs. Hazel Jane Burns, prominent Oakland resident who owns a beautiful summer home at Tahoe.

Herbert is secretary to the assistant secretary of the navy and resides at Walnut Creek where he is well known.

Father P. J. O'Neill of Truckee officiated at the rites and the matron of honor was Mrs. Billy Burns Houbanik, daughter of the bride, while the best man was William G. Herbert of Marysville, son of the bridegroom. The organist was Mrs. Pete Vanni of Tahoe and the altar boys were Billy and Danny Conners, also of Tahoe City.

After the ceremony, a reception was held at Forest Inn.

STILL CHISELERS ON UNEMPLOYMENT ROLL

SACRAMENTO—California still has a small segment of people on unemployment insurance who believe they can continue to chisel on the fund, William A. Burkett, director of the state department of employment said here today.

Burkett said that during July, the department found 134 claimants for insurance, and 25 employers guilty of violating the unemployment insurance code.

One claimant was acquitted in the courts, and charges against two employers were dismissed, he said.

Convictions of the claimants were based on charges they had received unemployment insurance benefits at the same time they were employed. Complaints against employers were for failure to report wages paid, and failure to pay to the department of employment their employes' contributions to the state disability fund.

"Despite the continuing program against chiseling," Burkett said, "there still are people who do not believe the department means business. We even get a repeater once and awhile, such as the man who was first convicted in 1947 for drawing benefits in both his own and his brother's name during a period in which he was working. His explanation of the second offense was that he wanted to find out whether he would have a steady job before he stopped drawing benefits."

For the first seven months of this year, the department has convicted 1165 chislers and employer convictions reached 164 during the same period.

FILM ON CANCER WILL BE SHOWN TO WOMEN'S CLUB

TAHOE CITY—The Women's Club of Tahoe held their meeting and luncheon at the Pheifer House in Tahoe City, August 19.

Following a luncheon, the afternoon was highlighted by an interesting talk on cancer and its danger by Dr. Monica Briner. Don Snyder was cooperative in showing movies, covering the same subject.

The next meeting will be held at Jos Ross' Trade Winds in Kings Beach, beginning at 12:30, September 2.

Reservations must be made not later than August 31 through phoning either Mrs. Dugdale Tahoma, or Mrs. Mortimer, Tahoe City.

The club plans on an afternoon of entertainment for the veterans from the Veterans Hospital in Reno, in the near future. This is an annual event.

DISHES RATTLE, BEDS ARE MOVED, BY EARTHQUAKE

TAHOE CITY—A severe earthquake shook the Tahoe City region Monday at approximately 10:55 p.m. It rocked buildings in a circular motion and rattled windows and dishes. At the Hendricks' home, near Carnelian Bay, rented for the summer by the Clay Shermans of Oakland, the childrens' beds slid around the room as the rocking motion continued.

President Invited To View California Projects

SACRAMENTO (CNS)—Governor Goodwin J. Knight has issued an invitation to President Eisenhower to visit two California projects when the chief executive of the nation visits California next month.

The governor sent the following telegram to the president:

"During your visit to California next month I hope that you will find it possible to include in your itinerary inspection trips to two of our important northern California projects, the Folsom-Nimbus development, and the Sacramento Deep Water Channel of the Sacramento-Yolo Port District.

"So important are these projects to the economy of California that I feey they warrant your personal attention. I shall be pleased to cooperate with your staff in scheduling arrangements."

CHARLES JOHNSON NAMES CAMPAIGNER

SACRAMENTO (CNS)—State Treasurer Charles G. Johnson, seeking re-election in November, announced he has appointed a campaign treasurer for the first time in his 31 years of incumbency.

Treasurer Johnson said Paul Taylor, Sacramento insurance man, will handle his campaign fund purse strings between now and November 2.

California's bees produced an estimated $2,977,000 worth of honey in 1953.

DEATH ON HIGHWAY SHOWING DECLINE

SACRAMENTO (CNS)—Commissioner Bernard R. Caldwell of the California Highway Patrol reported that the traffic death toll on state highways during July declined 4.4 per cent under what it was for the same month last year.

He said 194 motorists were wkilled during the month.

So far this year, Caldwell said, the statewide highway death toll of 1114 is running 15.22 per cent under that of a year ago.

SIERRA SUN ADS PAY!

BOTHERSOME BRUIN, NO RELATION OF SMOKEY, IS SLAIN

TAHOE CITY— For some weeks past now, residents of the Tahoe Park area have been complaining about the antics of a meandering brown bear which rambles into yards and onto back porches, helping himself to anything that happens to please his fancy.

Complaints have been pouring in to the Forest Service office of Clarence (Butch) Beavers, in charge at William Kent Campgrounds. He has tried, in his best official manner, to pacify these irate householders, who have told of throwing rocks at the four-legged prowler, only to have him go off a little ways and sit and glare at them—completely unafraid.

After days of investigation, and an effort to excuse the bear, Butch finally called the Truckee game warden, Irving Single. He told Butch to go ahead and take care of the case but not to kill Old Bruin unless he had to.

A few days more went by and then Mrs. Paul Webb, who owns a home a few blocks back from the highway in Tahoe Park, called the station to report that a full box of peaches had been taken from her back porch and she suspected the bear. The next night she called again and reported a box of apples missing, and the following day she called disgustedly to say that the bear was NOW standing on his hind legs and looking into the dining room window, his nose pressed against the glass, WHILE THE WEBBS WERE EATING!! Said Mrs. Webb to Butch, "He's not content to carry off my peaches and my apples, but now he wants a place at my dining room table. You've got to do something!"

Even Butch had to admit this was getting just a little too cozy for comfort, so he reported to the Fish and Game and was told to go ahead and set a trap for the animal. He set the trap on Sundy night and waited a while, but no bear put in an appearance. He went home, only to be called on the phone around 2 a.m. by Mrs. Webb who reported an awful roaring and rattling of chains. So Butch wearily dressed, grabbed the Springfield he had borrowed from Volunteer Fire Chhief Al Henry, Jr., of Tahoe City, and again made his way to the Webb home where he too heard the terrible racket.

By that time all of the residents of Tahoe Park had their lights on and were out in night attire to see what was causing the commotion. Butch made his way to the trap and threw his flashlight on a furious brown bear which after one well-directed shot, lie still at last.

Butch took the 150-pounder back to the public campgrounds where he hung him up to a nearby tree on exhibition, and it was bright and early the next morning when the crowd of tourists began lining up to have their pictures taken next to the bothersome Bruin—some with rifles, some with bows and arrows—and Heaven only knows how many stories of bravery will be told and retold when the vacationers get home and display their pictures to family and friends.

Says Butch about the whole thing: "I only hope that the youngsters, who love and respect old Smokey, my Forest Service pal of signboard fame, who urges young and old alike to please help Be more careful—with fire won't think it was Smokey we shot—because it wasn't. It was just one of his lowdown, no-account outlaw cousins!"

AUGUST 16 TO 31

CROWDED CONDITION IN PRISONS SHOWS NEED FOR PROJECT

SACRAMENTO (CNS)—California's present state prison system is 10 years old and it faces the same problem of overcrowding today as it did in 1944.

It's just the figures that are different. Ten years ago the problem was how to cram 6000 inmates into prisons meant to house only 4000.

Now, the problem is how to bed down 15,000 prisoners in only 9000 beds.

Richard A. McGee, director of the state department of corrections, in a monthly report to Gov. Goodwin J. Knight, said many of the recommendations made by the legislature, when it passed the "Prison Reorganization Act of 1944," have been carried out.

But, McGee said, the problem of overcrowding has not been solved. In a preliminary report on the department's first "ten year master plan," he said a new ten year plan, extending into 1965, will have to deal with the same situation as far as inmate housing is concerned.

"In short." said McGee, "the problem of idle prisoners in overcrowded facilities under mere custodial supervision must be overcome.

"In 1944, the same problem existed when over 6000 prisoners were overcrowded in faciilties with a capacity of about 4000."

At the end of July, the director reported, the inmate population in California's eight correctional institutions totaled 14,966. This was 1198 more than a year earlier.

With 9182 beds due to be available in permanent buildings next year, McGee said, the department will have to handle an estimated 15,920 male inmates.

Back in 1944 the prison population was expected to hit 12,000 in 1955, McGee said. McGee estimates a state prison population of 24,350 by 1965.

LIQUOR TAX UP IN STATE IN JULY

SACRAMENTO (CNS) — State liquor tax collections for July climbed to $1,696,000, an increase of 11 per cent over July a year ago, the state board of equalization reported today.

The board noted the recent movement of eastern brewers into California more than doubled beer exports from the state during fiscal 1953-54. Brewers exported 7,225,000 gallons during 1952-53, compared with 19,650,000 during the year ending last June 30. During the year, importing of beer from eastern states dropped off clightly.

But, the board added, taxable beer sales within the state during the last fiscal year were down seven million gallons, despite population gains and heavy advertising expenditures by the industry.

CUT IN GOVERNMENT TAX IS FELT LOCALLY

The $1,363,000,000 federal tax cut resulting from the tax revisions recently enacted by an overwhelming vote of congress will mean about $200,700 less the rest of this year that the people of Nevada County will have to pay in taxes to Uncle Sam, California Taxpayers' Association estimated today.

For the people of California, it means about $127,031,600 less in taxes that will be taken from them this year—about $10.40 per person or about $41.60 for a family of four—this is about $127,000,000 "not taken' from Californians which they may save, or spend, or invest.

COST TO NEEDY AGED IN COUNTY IS LESS THAN STATE AVERAGE

"Plain long division" produced the sum of $65.62 average aid per person paid in Nevada County to the people on the needy aged rolls for June, California Taxpayers' Association said today.

The $59,778 total paid to the people on the rolls was divided by the 911 people on the rolls for the month to arrive at $65.62 average aid per person, the association explained.

The same long division produces the $69 state-wide average paid per person for June, the $18,762,882 total payment for the month divided by the 281,916 people on the aged aid rolls throughout California.

Classroom in the sky

You might not guess it, but these men are going to school. They're learning how to climb telephone poles safely and to string lines that will carry your calls. This course is just one of many given in telephone schools. Others — lasting anywhere from three days to six months — train operators, business office people, installers, and the like. Such training gives telephone people the skills they need to do their jobs faster, better, cheaper . . . and more safely, too. Thus, they're better able to bring you good telephone service that's low in price. **Pacific Telephone works to make your telephone a bigger value every day.**

A long distance visit costs so little

How long has it been since you heard the voices of far-away loved ones—friends you haven't seen for ages? A visit by long distance is the next best thing to being there in person. It means so much and costs so little. You can call coast to coast—clear to Boston for example—for only $2.00 plus tax. That's the rate for a three-minute "station" call after 6 P.M. weekdays and all day Sunday. Calls over shorter distances naturally cost even less. Why not plan to send your love—your friendship across the miles by long distance tonight.

Free booklet comes in handy for personal telephone numbers

You'll be able to keep the local and long distance telephone numbers you call most often right at your finger tips with this free booklet. It's indexed for your convenience . . . will help you find numbers more quickly and easily, complete your calls faster. For your copy of the booklet, call, write, or drop in at our business office. And please remember that you're welcome to additional copies as you need them. **Pacific Telephone.**

NORTH TAHOE

By JUDGE HARRY CHARRISON

My wife and I spent a wonderful evening last weekend with Governor and Mrs. Charles H. Russell of Nevada and C. A. and Mrs. Carlson, Jr., director of the budget of Nevada. He was given a big welLodge. Saw Nat King Cole on his last night of his most successful engagement at the lodge. It was the first time the visitors had been here since the big meeting in March, 1952. They were both amazed at the growth even since then. The governor remarked on the friendship demonstrated in so many ways between California and Neveda. He was given a big welcome by the largest crowd yet to attend the club this season.

Was also at Eugenes at Incline Beach this week. After a delightful repast had to have a ride on Eugenes trolley car which runs from the road to the water. Joe Dolce is the chef and Mrs. Dolce is manager of the sweet little patio, which is as pretty as a picture, as is Mrs. Stewart the hostess, who is Eugene's sister.

John O'Connor arrived just in time to spend the celebration of his wife Ruby's birthday last week and by all accounts it was celebrated in great style. The O'Connors live on the golf course road. John is with the Boysen Paint Co.

Had a talk withh Major Samuel William Hussey, who at the moment is visiting his daughter and son-in-law in Kings Beach. Hussey is a veteran of the Spanish Insurrection and of the Philippines, born in Ohio, 1874, attended Ann Arbour and was a dental surgeon having worked on Teddy Roosevelt's teeth. He taught Dr. Louis S. Constine of Brockway the art of dentistry. Although only 80, his life has been a full one, and he could keep you up all night telling many a tall story. He is still a soldier at heart, his main attraction is the Stars and Stripes that hangs out in front of our house, and he says he is an eligible batchelor, but doesn't want to be rushed into anything serious—yet.

Evelyn Trump, daughter of Mrs. Malla of Mallas cabins on the highway at Kings Beach, is up. It is hoped that she will stay until September at least. Shirley, who has been up all summer, will have to go back to Berkeley and get ready for college at College of Pacific.

Bonnie Barnett of Bonnie Beach, Kings Beach, was telling me of a couple that had been staying at her resort for 13 years. They are Mr. and Mrs. Earl Wells of Burlingame, and another couple for 12 years, a Mr. and Mrs. J. P. Summers of San Francisco. Each of these couples had cabins next to each other at Bonnie Beach. And talking of Bonnie, she tells me that D. C. Barnett, her husband, who is enjoying a rest home outside of Reno, is quite a bit improved from the last report, also Bonnie tells me that business in the real estate line is good. Her helper, Shelia, is so good they call her the Ball of Fire.

Mr. and Mrs. Stanley J. Klein of Falcon Lodge, Kings Beach, are the proud grandparents of a bouncing baby girl. Oh, yes, it is their daughter's baby. The very very proud parents are Mr. and Mrs. Howard Gill of Pasadena, but are staying with their parents here, the wee bairn was born at the Tahoe Forest Hospital and such a cute name, Charlene Marie.

The John Mason Dixons of Incline Beach have been having the time of their life with friends and relatives from Fort Wayne, Ind., in the person of Judge and Mrs. Harold Korn and daughter, Susan. The judge is probate judge at Fort Wayne. Mr. and Mrs. Ed A. White,, Mrs. White is the beautiful daughter of John Dixon. And yet another visitor was District Attorney-elect Bill Beko of Nye County, Nev. The judge was the only one to have any luck, having caught a very nice 8-pound rainbow trout. John says all of the visitors were thrilled with the Tahoe area. All are leaving this weekend. They say John and Ethel were wonderful hosts.

Mr. and Mrs. J. C. Glunt have returned to their home on Fox street, after spending some nine months way off in Florida. They are not sure how long they will stay. They would like to dispose of their home, then make up their minds.

Well, wadda you know, our old friend Jack Judy is in town. First time we have seen him in many a day. He came in driving his old truck that he drove in the days of the gold rush, cute as a bug's ear it is to be sure. Jack sleeps, cooks, and eats in a homemade contraption on the back. His home is just where he makes it. For quite a while he has been living down by Salton Sea, says he sometimes goes three months without a seeing a person, has a dog, a cat, fishes for food which he gets in abundance, hobnobs with snakes. In fact, he says, he's just an old desert rat himself. He was here for a long time, and then when the city life of Kings Beach got the better of him, he moved. Anyway it was good to see old Jack. He will be here till Labor Day.

Yes, sir, sometimes we get a little alarmed with the juevnile population with good reason, but this is one case where it turned out pretty well. A good number of the local youngsters got a kind of a dance group together and held a few dances in the Carpenters' Hall, Kings Beach. The dances were conducted very well, although we held our breath. Well, they held the last one last week and to my surprise Jim Simmons, the head of the group, came to me with $50 that they had had donated by the youngsters, and asked if I would see that it would find its way to the Placer County Polio Fund. What a creditable ending to their dances that was. So we give credit where it is due. This certainly deserves a lot of that. Mrs. File and Gene Tompkins were a great help in keeping the affairs orderly.

Thanks, Kids.

55 Farm

Mono County had 55 farms in 1950, according to the census of agriculture of that year.

Retail Sales Drop In State During Quarter

SACRAMENTO — Retail sales in California were off 6.03 per cent for the first quarter of 1954, compared to the previous year, the state board of equalization announced today as it completed the quarterly summary of sales tax collections.

The board said the slowing down of business activity evident in the closing quarter of last year continued through the first quarter of this year.

Even though sales were 6 per cent below the record volume for the first quarter of 1953, the board said the state collected almost a hundred million dollars in sales and use taxes on $3,320,627,000 of self-assessed business.

The tabulation showed that Nevada County, from 795 licensed retail outlets, showed $2,223,000 taxable sales during the quarter, which was a decrease of 13.89 per cent from the first quarter of 1953.

Only four of California's 58 counties showed an increase for the quarter. They were Orange, San Mateo, Trinity and Sutter. More than half the counties, however, experienced losses in excess of 10 per cent over last year.

Good Drivers, See, Obey "Signs of Life", Patrol Commissioner Says

SACRAMENTO—"Expert drivers watch for and obey the signs of life.

"These signs of life," explained California Highway Patrol Commissioner B. R. Caldwell, "are the traffic signs, signals and pavement markings which remind all motorists and pedestrians of the law and warn them of potential dangers.

"Highway users are reminded that there are four basic sign shapes in addition to the familiar cross-buck used to indicate highway railroad crossings. The eight sided sign, red with white letters, always means stop. Round signs, either white or yellow, indicate railroad crossings; and diamond-shaped yellow signs all indicate caution for one reason or another. Rectangular signs tell of directions or regulations. All are important, for to ignore one of them could cost a life.

"The fact that some motorists choose ot ignore or disobey these signs or signals is a factor in a considerable percentage of all traffic collisions."

Caldwell emphasized his statement by pointing at figures for pedestrian fatalities during 1953.

"There were 785 pedestrians killed in California last year. In practically every instance either the pedestrian himself, or a thoughtless motorist ignored or disobeyed signs or pavement markings. More than 35 per cent of these victims were crossing the street at intersections," he said.

CERTIFICATE OF FICTITIOUS NAME

NOTICE IS HEREBY GIVEN that Kenneth P. Foster, Post-office box 1253, Truckee, California, Harry Digesti, Post-office box 732, Truckee, California, and Jerome A. Little, Post-office box 575, Kings Beach, California, have joined together and formed a partnership doing business in the fictitious firm name of 'Truckee Tahoe Fuel Company'; said company having commenced business operations on the 9th day of August, 1954, with its principal place of business located in the town of Truckee, County of Nevada, State of California. Further, that the three individuals named above comprise the total membership engaged in said business as partners.

Dated: August 9, 1954.

COST OF FISHING IS OUTLINED IN REPORT BY EXPERT

What is a day's fishing worth to the fisherman?

A soulful of scenery—special today at $?

Peace and quiet—9c a pound?

The thrill of having a big steelhead on the line can't be measured at so many dollars a reel-click.

But there is a dollar value. At rock-bottom, it's how much each angler is willing to spend out of his own pocket in order to catch his fish.

This is the figure Biologist David E. Pelgen of the Department of Fish and Game went after recently. He sent questionnaires to anglers all over the state in an effort to set a value on the salmon, steelhead, and striped bass fisheries that are continually threatened in California's expanding water development program.

The three sports fisheries Pelgen discovered, were worth $32,000,000 last year on this personal cost basis alone. Striped bass fishermen, who put in an estimated 2,000,000 days of fishing, spent $18,000,000. Steelhead anglers invested $6,000,000, and $8,000,000 went for 500,000 days of salmon fishing. The commercial salmon fishery was worth an additional several million dollars.

Individual fishermen averaged from $18 a day for steelhead to $9 for striped bass. Salmon anglers spent $16 a day, but one man who bought a yacht to troll for them ran up a bill of $136 day. Another man got by for just $1.15, fishing from his own backyard.

The average striper man said he fished 15 days last year, and caught 10 fish. This brought his costs to $14 per fish, or $2.85 per pound, at an average weight of almost 5 pounds per fish.

Most of his money went for transportation to the fishing area and for services—boat rental or party boat fee, bait, and "expendable" gear. Food and lodging took about one-fifth of his investment. Permanent equipment—rod, reel, boat, motor—took about 14 per cent. His angling license ran just over 1 per cent of his total cost.

Salmon anglers reported expenditures averaging $17 per fish. Boat fees and small supplies were the major items, totaling 40 per cent of the cost of each expedition. The average salmon fisherman reported a catch of one fish a day for about seven days of angling during the year. The fish averaged 12 pounds each.

Steelhead angling was the luxury sport, with expenditures hitting $28 per fish. A smaller yearly catch per angler—4½ fish in 7½ days of angling—helped run up the cost. About 70 per cent of the expenses of these far-roaming anglers was for transportation, food, and lodging.

In general, angler expenditures were a little higher than Pelgen and other expensive equipment. And the department's researcher may not be the only one surprised. More than one angler, after detailing his expenses, added a little note:

"Please don't let my wife find out about this."

NOTICE TO VOTERS

NOTICE IS HEREBY GIVEN to the electors of the State of California that the following Bond Act will be submitted to the People of the State of California for their ratification at the next general election to be held on the second day of November, A.D., 1954.

FRANK M. JORDAN,
Secretary of State.

FOR THE VETERANS BOND ACT OF 1954.

This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes.

1

AGAINST THE VETERANS BOND ACT OF 1954.

This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans.

This proposed law, by act of the Legislature passed at the 1954 First Extraordinary Session, is submitted to the people in accordance with the provisions of Article XVI of the Constitution.

(This proposed law does not expressly amend any existing law; therefore, the provisions thereof are printed in BLACK-FACED TYPE to indicate that they are NEW.)

PROPOSED LAW

An act to add Article 5e to Chapter 6 of Division 4 of the Military and Veterans Code, authorizing the creation of a debt or debts, liability or liabilities, through the issuance and sale of state bonds, to create a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and acts amendatory and supplemental thereto; defining the powers and duties of said committee and of the Department of Veterans Affairs and other state officers in respect to the administration of the provisions hereof; providing ways and means, exclusive of loans, for the payment of the interest of such debt or debts, liability or liabilities, as such interest falls due, and also for the payment and discharge of the principal of such debt or debts, liability or liabilities, as such principal matures; and providing for the submission of this act to a vote of the people at the general election to be held in the month of November, 1954.

The people of the State of California do enact as follows:

Section 1. Article 5e is added to Chapter 6 of Division 4 of the Military and Veterans Code, to read:

Article 5e. Veterans Bond Act of 1954

996.25. This article may be cited as the Veterans Bond Act of 1954.

996.26. For the purpose of creating a fund to provide farm and home aid for veterans in accordance with the provisions of the Veterans Farm and Home Purchase Act of 1943 and of all acts amendatory thereof and supplemental thereto, the Veterans' Finance Committee of 1943, created by Section 991, shall be and it hereby is authorized and empowered to create a debt or debts, liability or liabilities, of the State of California, in the manner and to the extent hereinafter provided, but not otherwise, nor in excess thereof.

996.27. After adoption of any resolution by the Veterans' Finance Committee of 1943, provided for in Section 996.34 the State Treasurer shall arrange for the preparation of the requisite number of suitable bonds in accordance with the specifications contained in such resolution. The aggregate par value of all bonds issued under this article shall not exceed the sum of one hundred seventy-five million dollars ($175,000,000) and shall bear interest at a rate not exceeding 5 percent per annum payable as provided in such resolution. Both principal and interest shall be payable in lawful money of the United States, at the Office of the State Treasurer, or at the office of any duly authorized agent of the State Treasurer.

All bonds issued under this article shall bear the facsimile signature of the Governor and the facsimile countersignature of the Controller and shall be endorsed by the State Treasurer either by original signature or by a signature stamp, and the bonds shall be signed, countersigned, and endorsed by the officers who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943, and each of said bonds shall bear an impress of the Great Seal of the State of California. Interest coupons attached to each bond shall bear the facsimile signature of the State Treasurer who shall be in office on the date of adoption of the resolution of the Veterans' Finance Committee of 1943. The Veterans' Finance Committee of 1943 may require that said bonds be authenticated by the State Controller or by any Deputy State Controller, and in such event no bond authorized hereunder shall be valid unless so authenticated in the manner so required. The bonds or coupons so signed, countersigned, endorsed, and sealed, when sold, shall be and constitute a valid and binding general obligation upon the State of California, although the sale or delivery thereof be made at a date or dates upon which the officers having signed, countersigned, and endorsed said bonds or coupons, or any or either of said officers, shall have ceased to be the incumbents of the offices held by them at the date of adoption of the resolution of the Veterans' Finance Committee of 1943. Each bond issue under this article shall contain a clause or clauses referring to this article and to the resolution of the Veterans' Finance Committee of 1943 hereunder by virtue of which said bond is issued, and if subject to call or redemption prior to maturity, shall contain a recital to that effect.

996.28. The State Treasurer shall, on the respective dates of maturity or prior redemption of said bonds, or as soon thereafter as said bonds are surrendered to him, pay the same out of the proceeds of the Controller's warrants drawn in his favor as provided in Section 996.29 and perforate the bonds so paid with a suitable device in a manner to indicate such payment and the date thereof. The State Treasurer, or his duly authorized agent, shall also, on the respective dates of maturity, cancel all bonds and appurtenant coupons bearing said dates of maturity and remaining unsold, by perforation with a suitable device in a manner to indicate such cancellation and the date thereof; provided, however, new bonds may be prepared and executed in lieu of bonds canceled solely by reason of the fact that such bonds have not been sold prior to their fixed maturity dates, whenever the Veterans' Finance Committee of 1943 shall determine such new bonds shall be prepared and executed, subject to the condition the total indebtedness created hereunder shall not exceed the maximum limit herein specified. Not less than four years after the final maturity date of a particular issue of bonds, the State Treasurer, or his duly authorized agent, may destroy or cremate any bonds of such issue which have been previously paid or canceled as hereinbefore provided.

996.29. All bonds herein authorized, which shall have been duly sold and delivered as herein provided, shall constitute valid and legally binding general obligations of the State of California, and the full faith and credit of the State of California is hereby pledged for the punctual payment of both principal and interest thereof. There is hereby appropriated from the General Fund in the State Treasury such sum annually as will be necessary to pay the principal of and the interest on the bonds issued and sold pursuant to the provisions of this article, as said principal and interest become due and payable.

There shall be collected annually in the same manner and at the same time as other state revenue is collected such a sum, in addition to the ordinary revenues of the State, as shall be required to pay the principal and interest on said bonds as herein provided, and it is hereby made the duty of all officers charged by law with any duty in regard to the collections of said revenue, to do and perform each and every act which shall be necessary to collect such additional sum.

On the several dates of maturity of said principal and interest in each fiscal year, there shall be returned into the General Fund in the State Treasury, all of the money in the Veterans' Farm and Home Building Fund of 1943, not in excess of the principal of and interest on the said bonds then due and payable, except as hereinafter provided for the prior redemption of said bonds, and, in the event such money so returned on said dates of maturity being less than the said principal and interest then due and payable, then the balance remaining unpaid shall be returned into the General Fund in the State Treasury out of said Veterans' Farm and Home Building Fund of 1943 as soon thereafter as it shall become available, together with interest thereon from such dates of maturity until so returned at the same rate as borne by said bonds, compounded semi-annually.

Both principal and interest of said bonds shall be paid when due upon warrants duly drawn against said appropriation from the General Fund by the Controller of the State in favor of the State Treasurer, or his duly authorized agent, and the money to be returned into the General Fund in the State Treasury pursuant to the provisions of this section shall likewise be paid as herein provided upon warrants duly drawn by the Controller. The Department of Veterans Affairs, by resolution approved by the Veterans' Finance Committee of 1943, shall direct the State Treasurer to call bonds (which are then subject to redemption) if such call is desirable and whenever funds are available to effect such redemption, the part of each issue so called to be not less than all of the bonds maturing in any one year. Notice of such redemption shall be given by the State Treasurer in the manner provided in the resolution authorizing the issuance of said bonds.

996.30. The bonds authorized to be issued under this article shall be sold by the State Treasurer to the highest bidder for cash, either at public auction or upon sealed bids as the Veterans' Finance Committee of 1943 may by resolution determine. The Treasurer must reject any and all bids for said bonds, or for any of them, which shall be below the par value of said bonds so offered plus the interest which shall have accrued thereon between the date of purchaser's payment for said bonds and the last preceding interest maturity date; and the Treasurer may from time to time, by public announcement at the place and time fixed for the sale, continue such sale, as to the whole of the bonds offered, or any part thereof offered, at such time and place as he may select. If said bonds are offered for sale upon sealed bids, then each bid shall be in writing and signed by the bidder and sealed, and shall be accompanied by the deposit of a certified check or cashier's check for five thousand dollars ($5,000), drawn on a bank or trust company authorized to transact and transacting business in the State of California, payable to the Treasurer of the State of California, such deposit not to bear interest. The deposit of each unsuccessful bidder shall be returned to him immediately upon the nonacceptance of his bid, and the deposit of the successful bidder shall immediately upon the acceptance of his bid become and be the property of the State of California and be placed in the State Treasury to the credit of the Veterans' Farm and Home Building Fund of 1943, and shall be credited to the successful purchaser upon the purchase price of the bonds bid for in case such purchase price is paid in full by him within the time mutually agreed upon between the successful bidder and the Treasurer. If the purchase price is not so paid, the successful bidder shall have no right in and to said bonds or by reason of said bid, or to the recovery of said deposit accompanying said bid, or to any allowance or credit by reason of such deposit unless it shall appear that the bonds would not be validly issued if delivered to the purchaser in the form and manner proposed. In case the purchase price is not so paid, the bonds so sold but not paid for shall be resold by the State Treasurer upon notice as provided in case of original sale.

Temporary or interim bonds, certificates, or receipts of any denomination whatever and with or without coupons attached thereto, to be signed by the State Treasurer, may be issued and delivered until the definitive bonds are executed and available for delivery. Signature of the State Treasurer may be by signature stamp.

996.31. Due notice of the time and place of sale of all bonds shall be given by said Treasurer by publication in one newspaper published in the City and County of San Francisco and also by publication in one newspaper published in the City of Sacramento and by publication in one newspaper published in the City of Los Angeles once a week during two weeks prior to such sale. In addition to the notice last above provided for, the State Treasurer may give such further notice as he may deem advisable, but the expense and cost of such additional notice shall not exceed the sum of five hundred dollars ($500) for each sale so advertised. The proceeds of the sale of such bonds and such amount as may have been paid as accrued interest thereon shall be forthwith paid over by said Treasurer into the Veterans' Farm and Home Building Fund of 1943 and must be used exclusively in aiding veterans in the acquisition of, or payments for, farms and homes, in accordance with the provisions of this chapter; provided, that the proceeds from the sale of said bonds may be used to pay the debt created by the issuance and sale thereof.

996.32. The Department of Veterans Affairs is authorized, with approval of the Department of Finance, to invest any surplus money in the Veterans' Farm and Home Building Fund of 1943 in bonds or obligations of the United State, or of the State of California, or of the several counties or municipalities or other political subdivisions of the State of California, and to sell such bonds, or obligations, or any of them, at the governing market rates, upon approval of the Department of Finance; or the Department of Veterans Affairs may, with the approval of the Director of Finance, invest money in such fund, in interest-bearing certificates of deposit of state banks having a paid-up capital of five hundred thousand dollars ($500,000) or more; provided, the total amount of money so deposited with any one bank shall not exceed a sum equal to 50 percent of the paid-up capital of such bank; provided, however, nothing herein contained shall inhibit the depositing in banks in accordance with Chapter 4, Part 2, Division 4, Title 2 of the Government Code, of money of any of the funds subject to the control of the Department of Veterans Affairs or appropriated for its use.

Interest accruing upon the deposit of money of the Veterans' Farm and Home Building Fund of 1943 shall be paid into and credited to said fund.

996.33. Upon request of the Department of Veterans Affairs, supported by a statement of the plans and projects of said department with respect thereto, and approved by the Governor, the Veterans' Finance Committee of 1943 shall determine whether or not it is necessary or desirable to issue any bonds authorized under this article in order to carry such plans and projects into execution, and, if so, the amount of bonds then to be issued and sold. Successive issues of bonds may be authorized and sold to carry out said plans and projects progressively, and it shall not be necessary that all the bonds herein authorized to be issued shall be sold at any one time.

996.34. Whenever the Veterans' Finance Committee of 1943 shall have determined that the sale of all or any part of the bonds authorized to be issued under this article is necessary or desirable to carry such plans into execution, in whole or in part, it shall adopt a resolution to this effect. The said resolution shall authorize and direct the State Treasurer to provide for the preparation of the requisite number of suitable bonds then authorized to be sold and shall specify as to such bonds then to be sold:

1. The maximum number of each denomination or denominations, aggregate par value, and the date of the bonds to be then sold. The date appearing on said bonds shall be deemed to be the date of issuance for all purposes of this article, irrespective of the actual date of delivery of such bonds and the payment of the purchase price thereof. Successive issues of bonds herein authorized shall be identified by the number of the issue, or the entire authorized issue may be divided into series or divisions appropriately identified by letter or number.

2. The date or dates of maturity, and the number and numerical sequence of the bonds maturing at each date of maturity, to be at annual intervals.

3. The provisions, if any, for the retirement of said bonds at any time or times prior to their maturity, the manner thereof, and the price or prices at which said bonds shall be redeemed.

4. The annual rate of interest which the bonds to be issued shall bear, to be in multiples of one-fourth of 1 percent, which rate, at the discretion of said committee, may be determined by the bidder at the time of sale of said bonds, not to exceed 5 percent payable as herein provided.

5. The provisions, if any, for the interexchange of bonds of different denominations, the issuance of new bonds of different denominations in lieu of, or in exchange for, bonds of a like aggregate principal amount but of different denominations, and the authentication of any bonds by the State Controller or by any Deputy State Controller.

6. The technical form and language of said bonds and of the interest coupons to be attached thereto.

In determining the date or dates of maturity of the said bonds and the amount of bonds maturing at each date of maturity, the Veterans' Finance Committee of 1943 shall be guided by the amounts and dates of maturity of the revenues estimated to accrue to the Veterans' Farm and Home Building Fund of 1943 from the transactions to be financed by each issue, and shall fix and determine said dates and amounts in such manner that, together with the dates and amounts of interest payments on the said bond issue, they shall coincide, as nearly as practicable, with the dates and amounts of such estimated revenues; provided, the bonds first to mature in each issue shall mature not later than five years and the bonds last to mature in each issue shall mature not later than 45 years from the date of issuance thereof.

The rate of interest to be borne by the bonds need not be uniform for all bonds of the same issue or series or division, and may be determined and fixed by the Veterans' Finance Committee of 1943 by resolution adopted at or after the sale of said bonds, but not exceeding in any case 5 percent per annum payable semiannually. The highest bid received on the sale of the bonds shall be determined by deducting the total amount of the premium bid (if any) from the total amount of interest which the State would be required to pay from the date of the bonds or the last preceding interest payment date, whichever is latest, to the respective maturity dates of the bonds then offered for sale at the coupon rate or rates specified in the bid, and the award shall be made on the basis of the lowest net interest cost to the State. The lowest net interest cost to the State shall be computed on a 360-day year basis. The interest coupon first payable may, if the Veterans' Finance Committee of 1943 shall so determine and specify, be payable at any time within one year after the date of issuance of said bonds.

996.35. All actual and necessary expenses of the Veterans' Finance Committee of 1943 and of the members thereof incurred in the performance of their duties arising out of the provisions of this article and expenses incurred by the State Treasurer in having said bonds prepared and in advertising their sale or their prior redemption shall be paid out of the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

Whenever the Veterans' Finance Committee of 1943 deems it advisable to obtain a legal opinion as to the validity of the bonds, prior to or after sale, from attorneys other than the Attorney General, the committee may authorize the State Treasurer or the Department of Veterans Affairs or both to obtain such a legal opinion. Payment for such legal services shall be made from the Veterans' Farm and Home Building Fund of 1943, on Controller's warrant duly drawn for that purpose, and shall constitute expenses of the Department of Veterans Affairs.

996.36. The Controller, the Treasurer and the Veterans' Finance Committee of 1943 shall keep full and particular account and record of all their proceedings under this article, and they shall transmit to the Governor an abstract of all such proceedings thereunder, with an annual report, to be by the Governor laid before the Legislature biennially; and all books and papers pertaining to the matter provided for in this article shall at all times be open to the inspection of any party interested, or the Governor, or the Attorney General, or a committee of either branch of the Legislature, or a joint committee of both, or any citizen of the State.

996.37. So long as any bonds authorized under this article may be outstanding, the Director of the Department of Veterans Affairs shall cause to be made at the close of each fiscal year, a survey of the financial condition of the Division of Farm and Home Purchases, together with a projection of the division's operations, such survey to be made by an independent public accountant of recognized standing. The results of such surveys and projections shall be set forth in written reports and said independent public accountant shall forward copies of said reports to the Director of the Department of Veterans Affairs, the members of the California Veterans Board, and to the members of the Veterans' Finance Committee of 1943. The Division of Farm and Home Purchases shall reimburse said independent public accountant for his services out of any funds which said division may have available on deposit with the Treasurer of the State of California.

Sec. 2. This act shall take effect upon its adoption by the people as to all its provisions except those relating to and necessary for its submission to the people, and for returning, canvassing, and proclaiming the votes, and as to said excepted provisions this act shall take effect immediately.

Sec. 3. This act shall be submitted to the people of the State of California for their ratification at the next general election, to be held in the month of November, 1954, and all ballots at said election shall have printed thereon and in a square thereof, the words: "For the Veterans Bond Act of 1954," and the same square under said words the following in eight-point type: "This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans to acquire farms and homes." In the square immediately below the square containing such words, there shall be printed on said ballot the words, "Against the Veterans Bond Act of 1954," and in the same square immediately below said words, in eight-point type shall be printed "This act provides for a bond issue of one hundred seventy-five million dollars ($175,000,000) to be used by the Department of Veterans Affairs in assisting California war veterans." Opposite the words "For the Veterans Bond Act of 1954" and "Against the Veterans Bond Act of 1954," there shall be left spaces in which the voters may place a cross in the manner required by law to indicate whether they vote for or against said act, and those voting for said act shall do so by placing a cross opposite the words, "For the Veterans Bond Act of 1954" and those voting against the said act shall do so by placing a cross opposite the words "Against the Veterans Bond Act of 1954." Provided, that where the voting of said general election is done by means of voting machines used pursuant to law in such manner as to carry out the intent of this section, such use of such voting machines and the expression of the voters' choice by means thereof, shall be deemed to comply with the provisions of this section. The Governor of this State shall include the submission of this act to the people, as aforesaid, in his proclamation calling for said general election.

Sec. 4. The votes cast for or against this act shall be counted, returned and canvassed and declared in the same manner and subject to the same rules as votes cast for state officers; and if it appear that said act shall have received a majority of all the votes cast for and against it at said election as aforesaid, then the same shall have effect as hereinbefore provided, and shall be irrepealable until the principal and interest of the liabilities herein created shall be paid and discharged, and the Governor shall make proclamation thereof; but if a majority of the votes cast as aforesaid are against this act then the same shall be and become void.

Sec. 5. It shall be the duty of the Secretary of State in accordance with law to have this act published in at least one newspaper in each county, or city and county, if one be published therein, throughout this State, for three months next preceding the general election to be held in the month of November, 1954. The costs of publication shall be paid out of the General Fund, on Controller's warrants duly drawn for that purpose and shall be refunded to the General Fund out of the Veterans' Farm and Home Building Fund of 1943. Said refund shall be made upon Controller's warrants duly drawn against said fund for said purpose upon demands audited by the State Department of Finance.

Rules To Preserve Fish For Transporting Are Listed By Department

While most anglers won't be able to bring 'em back alive, they can preserve their trout for the sometimes long trip home by following a few simple rules suggested by the Department of Fish and Game.

To get them home safely, keep them clean, cool and dry. In the field they should be kept in a trout basket—not in a sack. Clean them as soon as possible, then dry them thoroughly and don't use any more water on them. Hang your trout outside at night, with proper air circulation and protected from marauders.

To preserve trout for several days, hang them out overnight to cool and dry, then pack them well in willow cuttings or grass in alternate layers. Roll them up each day in abed roll or some other insulating material, and hang them out again each night to air and cool.

Live fish may be kept in the water, but they should be checked often and dead ones cleaned immediately. Of course, the sooner trout are cooked and served after they leave the water, the better their flavor.

Equalization Board Asks For Additional Officers

SACRAMENTO (CNS)—Additional help to clean-up a mounting backlog of cases against liquor licensees, who are accused of various violations, is being requested by the state board of equalization.

The board will ask the state division of administrative procedure to provide at least one, and possibly two extra hearing officers, and two legal stenographers to help on the pending liquor complaints.

Preceding the action, the board was told that there are 425 pending accusations, which have not even been set for preliminary hearing before board referees. Of these, 270 are in southern California. Another 50 complaints have been set for hearing, but have not been heard.

James Quinn, board member from Oakland, said that he has been getting complaints from liquor enforcement officers because of the delay in scheduling cases for hearing. Some instances, he said, there have been delays as long as four or five months.

Quinn said one reason the board asked for help is to "clear the decks" in the event liquor law enforcement is turned over to another agency. The people will vote in November on the question of whether to remove liquor control from equalization and turn it over to a state liquor administrator.

State Park System

The present California State Park System consists of more than 125 units comprising more than 600,000 acres of land.

International House To Build Lodge At Tahoe This Year

TAHOE CITY—Plans are going forward toward construction of a Tahoe lodge as a recreational center for International House Association, Inc., of Berkeley.

The lodge, under plans now completely formulated, will be located in the valley adjacent to Granlibakken, near Tahoe City. This particlar location, sponsors declare, offers many advantages over any other locality within a reasonable traveling distance from the bay area. The site is on national forest service land and is near Highway 89 which is kept open the year around.

It offers excellent summer vacation facilities and is within walking distance of Lake Tahoe.

One of the facts mentioned in the prospectus is that the Tahoe Forest Hospital is not far distant and yet the site is secluded, only half a mile from the highway.

The structure will be built in easy stages commensurate with the funds available. The majority of the labor used throughout the building period wil be donated by the association members and International House students.

It is estimated that the completed project will cost $10,000 the first stages to be completed this year, will require $5000. Subsequent finish work and additions, when needed, can be readily accomplished in years to come.

The spirit of the International House Association is to continue the International House experience beyond the house itself, or into the American community, the prospectus points out.

The lodge will give foreign students and association members the opportunity "for relaxed exchange of ideas" through working and living together in a vacation atmosphere along the ridge of the Sierra.

The lodge is expected to be a sustaining project which will help draw the association together in a common work effort. Robert G. Sproul is president of the association.

New Deputy Added To County Sheriff's Staff

Don Bosworth, 33, whose background of experience includes work in the fields of accounting, teaching, and overseas wartime army service, became a deputy sheriff at an informal ceremony at the sheriff's office in Nevada City.

Bosworth has lived at Grass Valley since 1933 and served as office manager at the Camp Beale officer's club, and as Nevada City accountant.

Cathy Street Honoree At Donner Beach Party

Mrs. John Street entertained on Thursday, August 19 at a Donner Lake Beach party to honor their daughter, Cathy on her fourth birth date. Those present to share the afternoon with the small honoree were Jerry and Monty Heugebauer, Linda and Randy Russell, Cathy and Lelani Braasch, Kris and Debby Ellis, Judy and Jean Wakefield, Liane Kay, Ann Morey, Bruce Leamon, Kris Kumle, Courtney Lewis, Karen Hedlund, Bill and Diane Cardinal, and John McGlade.

Out-of-town guests were Bunny and Candy Board, Debby Zorich, Mrs. Lowell Street, Mrs. Norman Fisher and sons, Jeff and George.

Mr. and Mrs. Street also celebrated their wedding anniversary on August 22.

Baileys To Bay—
Mr. and Mrs. William Bailey who have spent several weeks in Truckee, returned this week to San Francisco.

Rameys Here—
Mr. and Mrs. Wayne Ramey and son David of Woodland visited her parents, Mr. and Mrs. Leslie Grow.

Mayor Building—
Mr. and Mrs. H. H. Hendren of Sacramento are building a house at Donner Lake located near Pleasant View, the home of her mother, Mrs. Sarah B. Hooper. Hendren is mayor of the capital city.

Butcher Boy—
Jerry Quam is now employed in the meat department of Rose Brothers Markets assisting Joe Carter, department manager.

Birth Date—
Mrs. Roy Waters had a birth date on August 23.

Local Highways Get C. of C. Nod

Several highway improvements in this area have been included among the 108 recommended projects submitted to the state highway commission by William J. Tunison, Westwood, chairman of the Sacramento Valley region of the California State Chamber of Commerce.

Highlighting these local recommendations was one to realign and reconstruct State Route 89 on the west side of Lake Tahoe from the Tahoe Wye past Emerald Bay, including a bridge to span Emerald Bay. This work has long been urged by the Lake Tahoe-Sierra Chamber of Commerce as well as other organizations and individuals.

The state chamber also recommends four-laning Highway 40 to the Nevada State Line providing freeway standards.

The recommendations were part of some 468 highway improvements contained in the state chamber's entire report on road and highway conditions in all parts of California. They were to be considered by the California Highway Commission in its study of the 1955-56 highway budget.

Family Travels—
Mr. and Mrs. Frank Giovannoni celebrated his birthdate on August 21 with relatives in Woodland where their daughter Linda had been vacationing. During the trip they stopped at Roseville for their son, Frank, and second daughter, Judy, returned home from Williams.

Guests At Ray House—
Mrs. Lottie Braly of Ada, Okla., and Mr. and Mrs. John Muratet of Reno were houseguests of Mrs. C. H. Ray this week.

Mays See Smarts—
Mr. and Mrs. John May and daughters, Nora and Sheila of San Francisco were houseguests of Mr. and Mrs. Reg Smart until Wednesday.

Vist Family—
Mr. and Mrs. Douglas Barrett and four daughters of Sacramento are visiting his parents, Mr. and Mrs. Walter Barrett.

From Grass Valley—
Mr. and Mrs. James Leamon and on of Grass Valley were guests of Mr. and Mrs. H. Langille during the weekend.

Pearson Meets Friends—
Vern Pearson of San Luis Obispo, with his daughter, Mrs. A. H. Ahrendes and children of San Bernardino visited local friends on Monday. Pearson was formerly roadmaster here with the Southern Pacific Company before being transferred south.

YOUTHFUL VICTIM OF AUTO ACCIDENT STILL UNIDENTIFIED

Continued efforts by local authorities to learn the identity of a boy between 16 and 19 years of age, killed in an auto accident just east of Floriston on August 18 have failed to reveal a clue.

The body so closely resembled a missing Ground, Washington, youth's description that his parents made the long trip to Truckee last week only to find, with considerable relief, that he was not their son.

The couple, Mr. and Mrs. R. D. Dunn, told Coroner Alvah Hooper, who described the boy to them during a lengthy telephone call in response to their inquiry, that their son, Phil, left home seeking work on July 17 and has not been heard from since that time. Detailed description, including dental work, clothing detail and other marks of identity were similar to that of their son, they said, but he was not the missing Phil.

While no word had been received from the FBI the state criminal identification and investigation agency had no record of fingerprints.

The body was buried yesterday in the Truckee cemetery under the direction of the Truckee Colonial Mortuary which has held it since the time of the accident in hopes identity could be established.

Dentist's Brother, Family Visit Here from East

The Oliver Scow family has enjoyed a visit from Dr. Scow's brother, Dr. Robert Scow, on leave from the U. S. Public Health Service at Bethesda, Maryland, with his wife and three children. Highlight of his visit here was a 4-day pack trip to Warren Lake, accompanied by Bud Bradshaw, Jay Richards, Frank Davenroy and two men from Reno—Les Lerude and Tom Johnson.

Falls From Ladder—
David, small son of Mr. and Mrs. Paul Capelle had the misfortune to fall from a ladder recently, injuring his head. He was treated by Dr. King.

Hurts Arm—
Mr. and Mrs. Tom Level of Lincoln returned to their place at Webber Lake. Level recently injured his arm when he fell from his horse.

Mightiest Crane
The world's mightiest crane, capable of hoisting 630 tons, is located at the San Francisco Naval Shipyards.

CHURCH WOMEN TO SERVE SUPPER FOR LOCAL LODGE

Rev. Wesley Osman of the Methodist Church in Truckee will conclude his series of sermons on the church by speaking to the question, "How Friendly Are You to the Church?"

The Women's Society of Christian Service served a dinner for the Rebeccas on Wednesday night. The Women's Society, instead of meeting every second and fourth Thursday afternoon, will meet the second Thursday afternoon as usual, and the fourth Tuesday evening for Bible study under the leadership of Rev. and Mrs. Osman.

The MYF will meet as usual on Sunday evening at 6:30 with Bert Beiler telling of his hopes and reasons for the choice he has made in a vocation. Monday the girls of the MYF helped to paint their Sunday school room and Wednesday they helped the women of the W.S.C.S. serve at the Rebecca dinner.

From Bakersfied—
Gordon Hussey, who spent much of his early life at Hobart Mills, now residing at Bakersfield, was vacationing here this week and with the noted singer, Laurence Tibbett enjoyed fishing in Euer Valley.

BALLET DANCERS ENTERTAIN ROTARY AT MONDAY MEET

The Truckee Rotary Club Monday evening was entertained by the Hoyfjellet Dance Caravan, a group of young women being schooled in ballet by Mrs. Lillian Keber, a widely known dancer and instructor. The dancing was most enjoyable and showed the long training the students have undergone. They were sponsored here by Mr. and Mrs. John Zahara, who are hosting the group of Hoyfjellet Dance Camp on Donner Summit.

Among the visiting Rotarians were: Art Honegger, Antioch; Caleton Hall, Lincoln; Lyman Griswold, Hanford; Carl Scholberg, Loyalton; and H. R. Medford, Loyalton.

The next meeting of the Truckee Rotary Club will be at Donner Lake Lodge, August 30, when an outstanding speaker from Reno will be the guest.

License For Local Couple—
Flabio O. Moreno and Pauline M. Antunovich both of Truckee were issued a marriage license at Reno this week.

Friday 13 Party—
Mrs. Ernest Olsen gave a party on Friday, 13 for their daughter Ilene on her sixth birthdate. Games, favors and refreshments were enjoyed by the small guests.

TARZAN, STERLING SHEA AND GEORGIE FEARONS WERE SUMMONED BEFORE THE WHITE GOD OF THE LAKE-DWELLERS--NONE OTHER THAN BERNARD SHEA!

"WHY ALL THE DRAMATICS?" ASKED BERNARD "I PRESUME YOU KNOW BY NOW THAT I WANT YOU KILLED-- IT'S JUST A UNIQUE METHOD HAS DEVELOPED--"

"AN INCREDIBLE WATER MONSTER HAS BEEN THE SCOURGE OF MY 'SUBJECTS -- I HAVE CONVINCED THEM IT NEEDS APPEASEMENT--

"TOMORROW YOU WILL ALL SUFFER A HIDEOUS DEATH," CONTINUED BERNARD "BUT NATURALLY MY SORROW WILL BE TEMPERED WHEN I RETURN HOME AND RECEIVE STERLING'S INHERITANCE."

SUDDENLY GEORGIE FEARONS INTERRUPTED "WAIT-- BERNARD! I BEG YOU TO GIVE ME A PRIVATE AUDIENCE-- IT CONCERNS THE UTMOST IMPORTANCE"

BERNARD SHEA WAS CURIOUS AND DISMISSED THE OTHERS CALMLY NOW, GEORGE SPOKE "OF COURSE, YOUR PLAN INCLUDES A DETAILED REPORT TO THE AUTHORITIES OF YOUR NEPHEW'S DEATH--"

"BUT WHAT IF THE INVOLVEMENT OF A LARGE SUM OF MONEY AROUSES SUSPICION? I WOULD THINK YOU'D WANT THE REPORT VERIFIED-- BY AN UNBIASED WITNESS, PERHAPS.."
